AETERDERM®

PURI LIPS is perfect anytime

for hydrated and naturally flushed lips.

However,
if you've had a Lip Filler Treatment,
and wish to enhance your results with a PURI LIPS as part of your aftercare,
we recommend scheduling it

4 to 6 weeks post-filler

for optimal effects.

Most hyaluronic acid-based fillers stabilize within 2 to 4 weeks after treatment. During this time, swelling and bruising subside, and the filler naturally settles into place.

Receiving a lip booster after this period can maximize synergy with the filler, enhancing overall results.

Adjunctive Treatment Options

- **RF&Laser Device** (Secret RF, Potenza etc.)
Promotes collagen regeneration and enhances the synergistic effect of PURI LIPS treatment.
- **Non-Invasive Recovery Device** (Cryocell, LDM, LED etc.)
Supports post-treatment calming and recovery, boosting the overall results when combined with PURI LIPS.

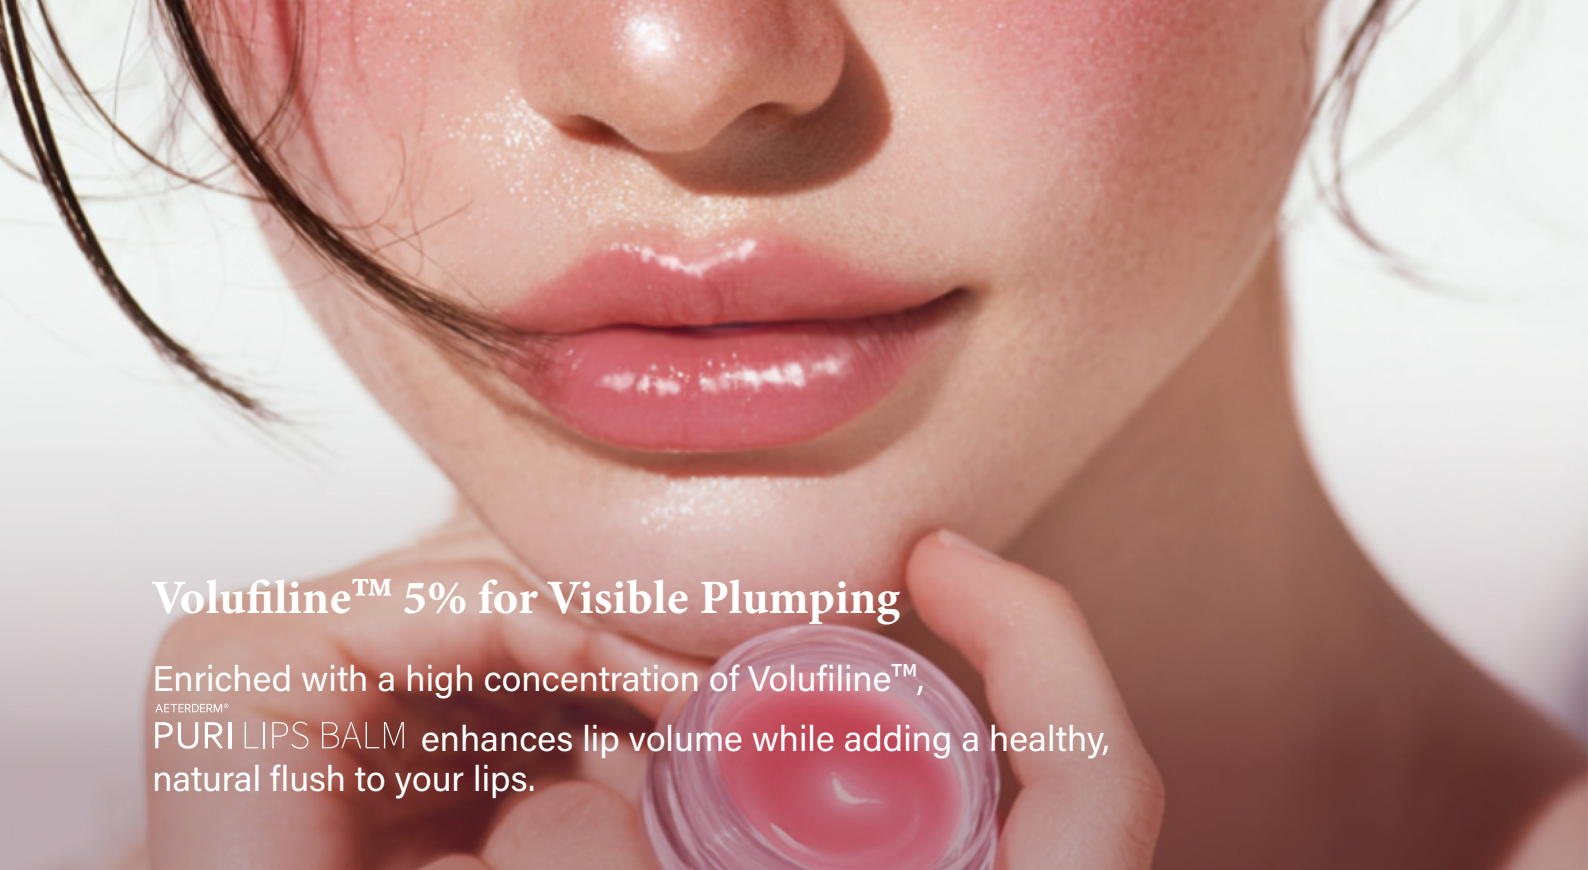

- **Recommended Needle**
30-32 Gauge
- **Composition**
High & Low molecule Hyaluronic Acid
Mannitol
Vitamin B12 (Cyanocobalamin)
- **Quantity**
1.1 mL x 1 Syringe

AETERDERM®

PURILIPS BALM

Volufiline™ 5% for Visible Plumping

Enriched with a high concentration of Volufiline™, AETERDERM® PURI LIPS BALM enhances lip volume while adding a healthy, natural flush to your lips.

Silky, Non-Sticky Texture

The ultra-smooth formula glides on effortlessly, leaving no sticky residue or white film. Your lips stay soft, supple, and comfortable all day.

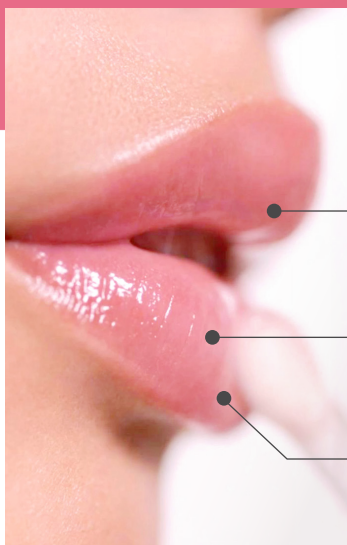

Moisture & Protection

Long-lasting hydration helps protect and restore dry, chapped lips, ensuring smoother texture and enhanced treatment results.

• Before & After

• How to use

Using the lip brush enclosed in the package, apply an appropriate amount and spread gently over the lips.

After PURI LIPS Treatment
Apply a generous amount after PURI LIPS booster procedure to maximize volume and color retention.

As a Makeup Finisher
Use over lipstick or tint to enhance gloss and achieve a dewy, plump look.

Night Care
Apply a thick layer before bedtime for soft, supple lips the next morning.

A close-up, high-resolution portrait of a woman's face, focusing on her eyes, nose, and lips. She has light brown hair, blue eyes, and prominent freckles across her nose and cheeks. Her lips are coated in a vibrant red lipstick. The skin has a natural, dewy glow. The background is a soft, out-of-focus light blue.
