Hyaluronic Acid

Rich & Young Skin Structure

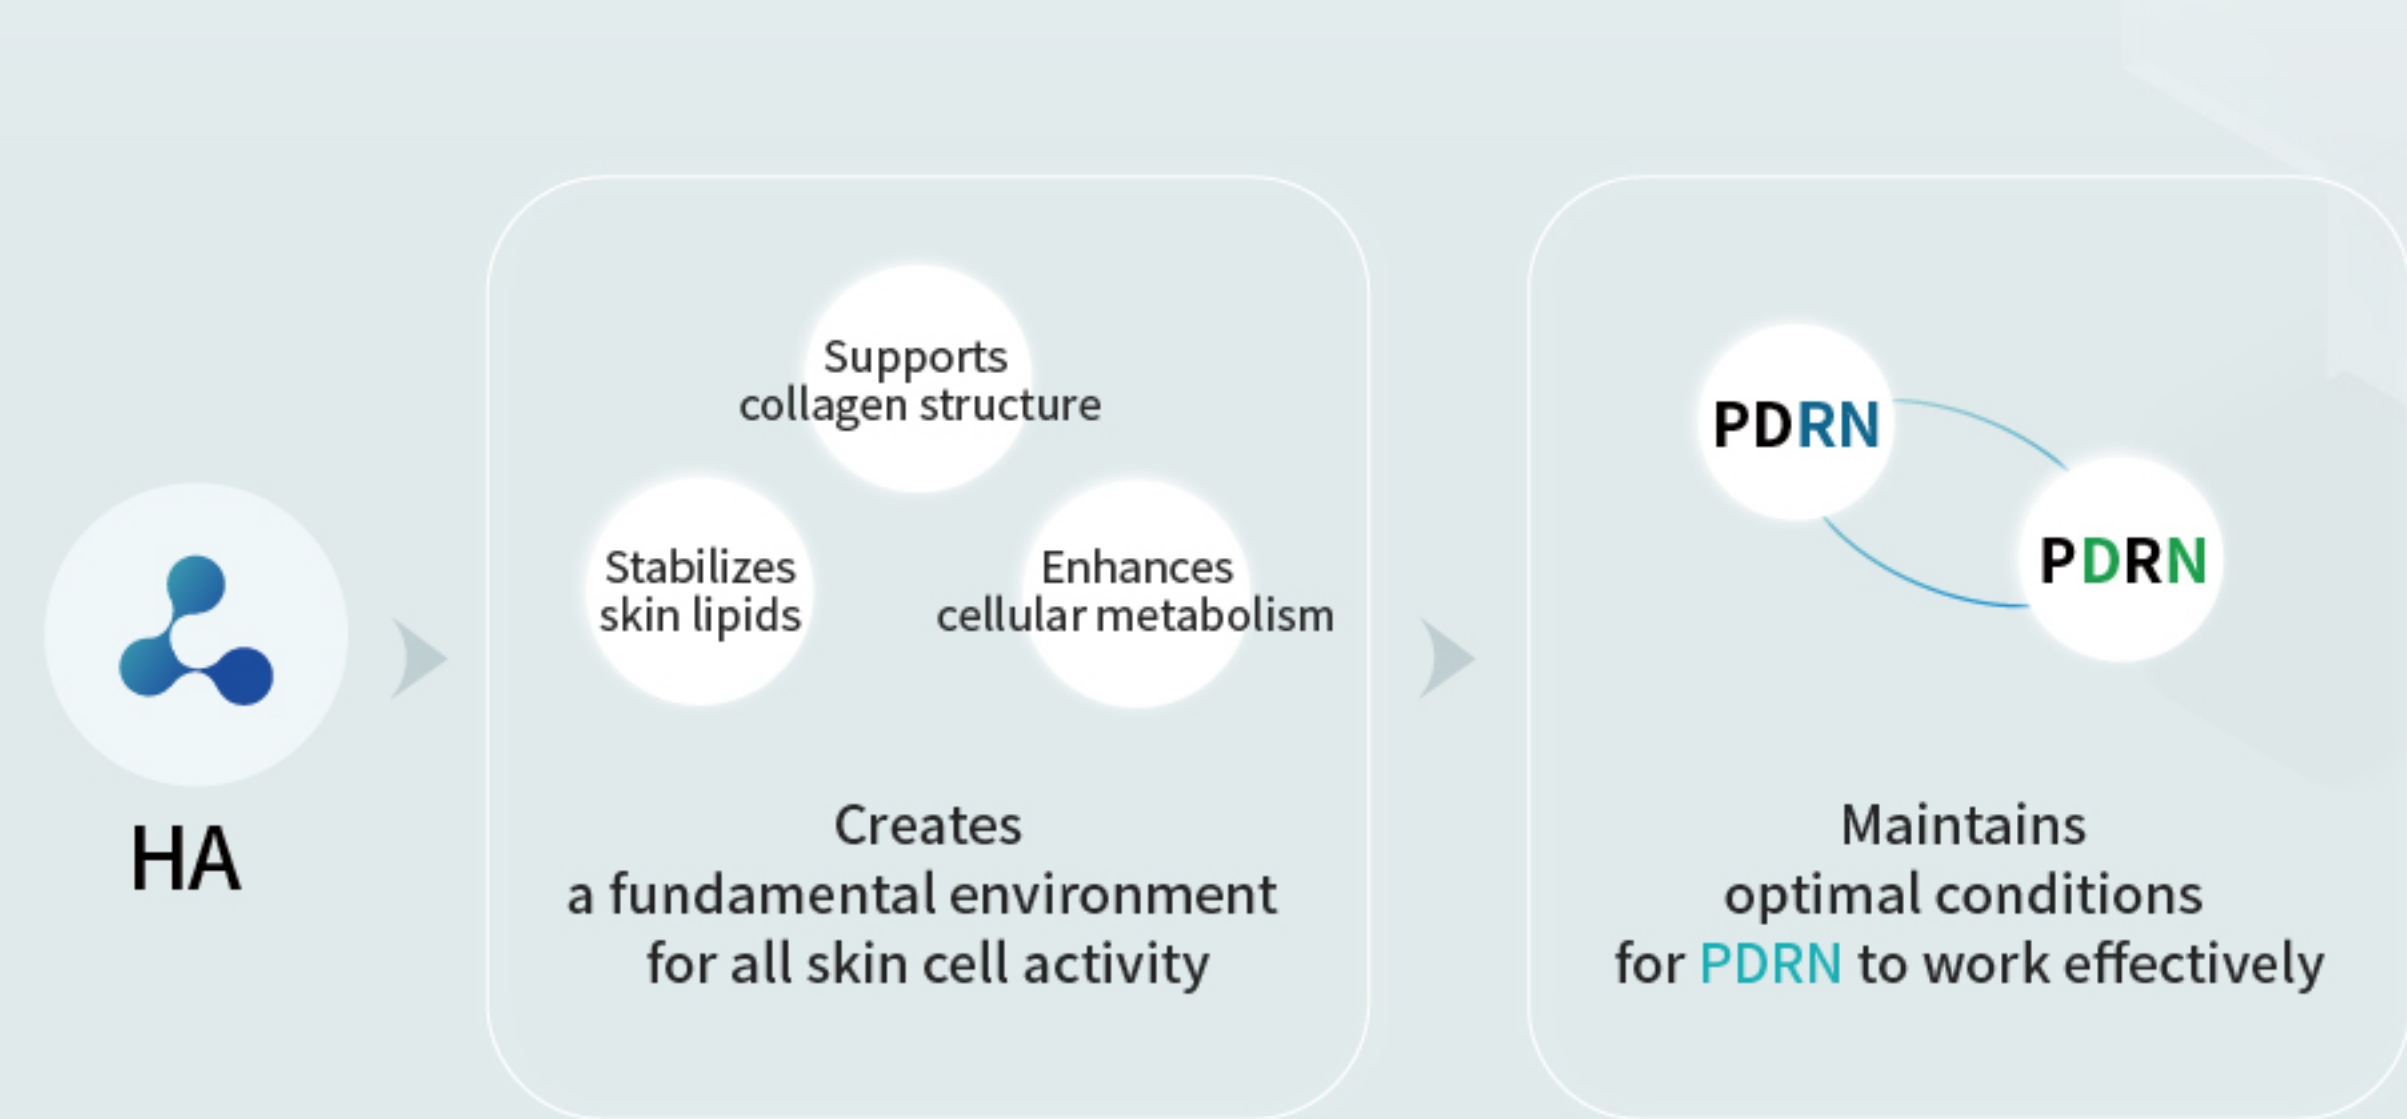

Purified PDRN acts as a direct DNA source, fueling the skin’s self-regeneration. As a key form of nucleic acid, it restores Collagen, Elastin and Cells.

Without sufficient nucleic acids, cells lose their regenerative function, gradually deteriorate, and eventually undergo aging and cell death.

Moist & Sooth Skin Texture

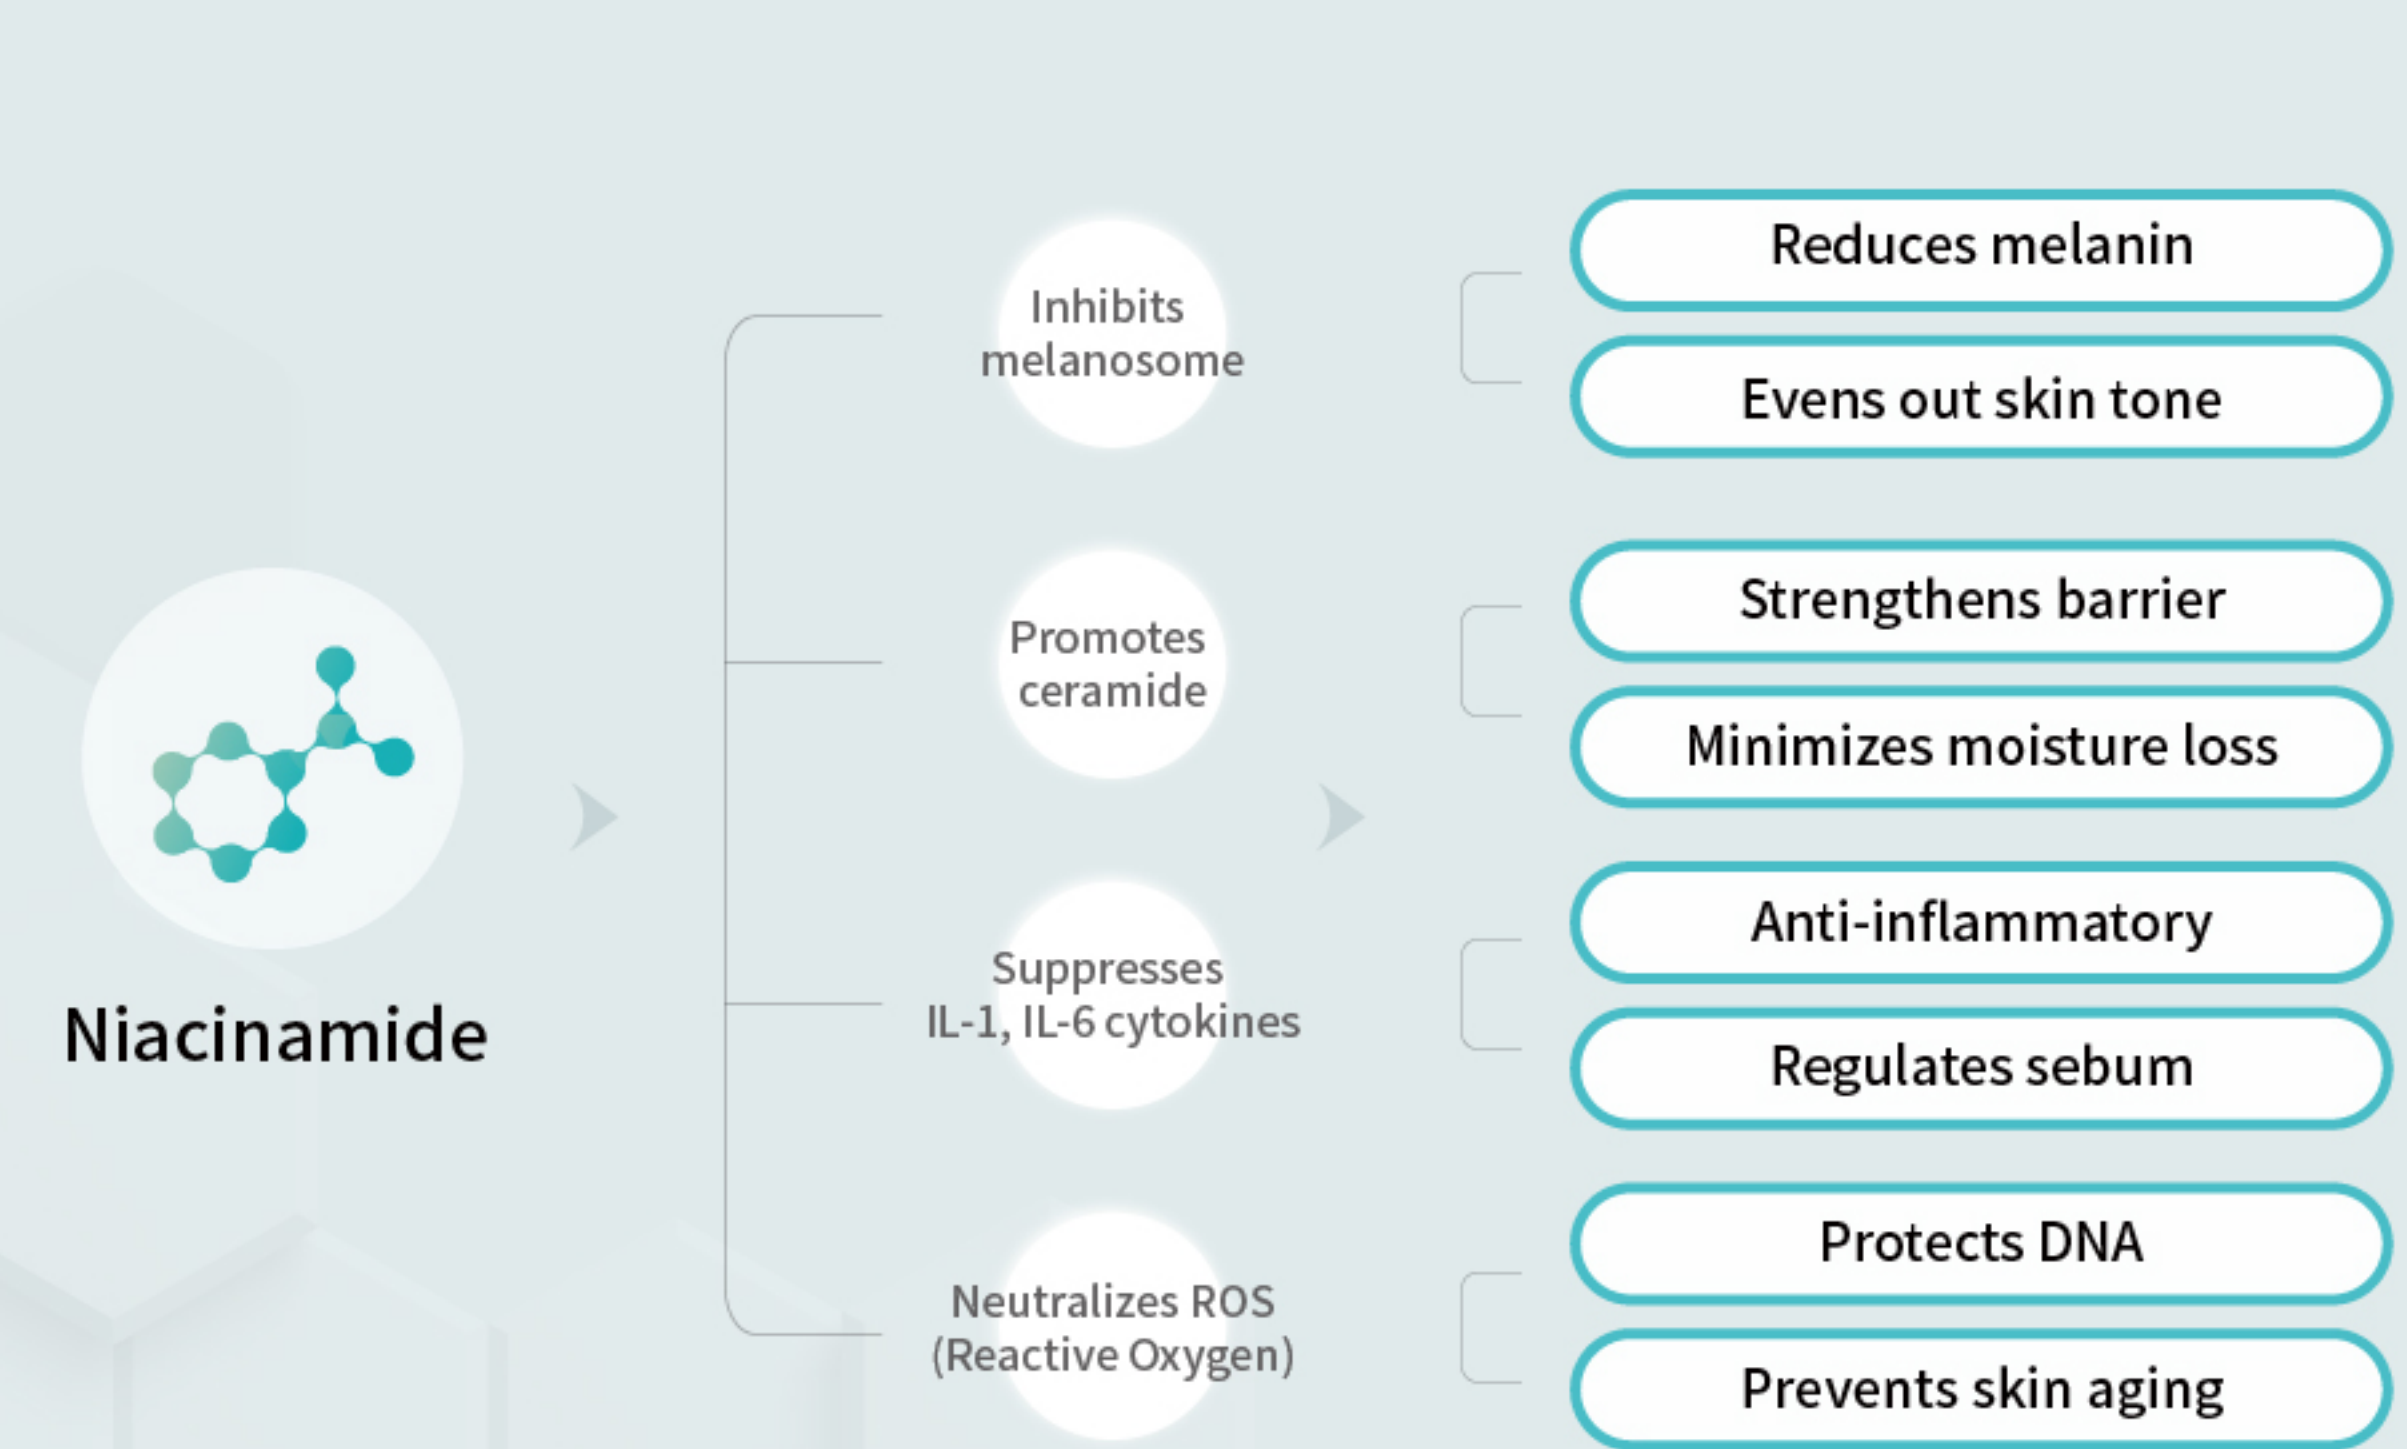

The **Hyaluronic Acid** in PURI PDRN can attract and retain up to 1,000 times its weight in water, It plays a critical role in helping skin and cells stay hydrated and function properly.

Even & Brighter Skin Tone

The **Niacinamide** in PURI PDRN helps prevent melanin pigmentation, resulting in a brighter and more even skin tone.

Niacinamide also supports overall skin function, enhancing the multi-faceted skin-repairing effects of **purified PDRN**.

Results from clinical trials

Clinical data obtained over 4 months, following 4 treatment sessions at 2-week intervals and an 8-week follow-up phase.

Skin Density

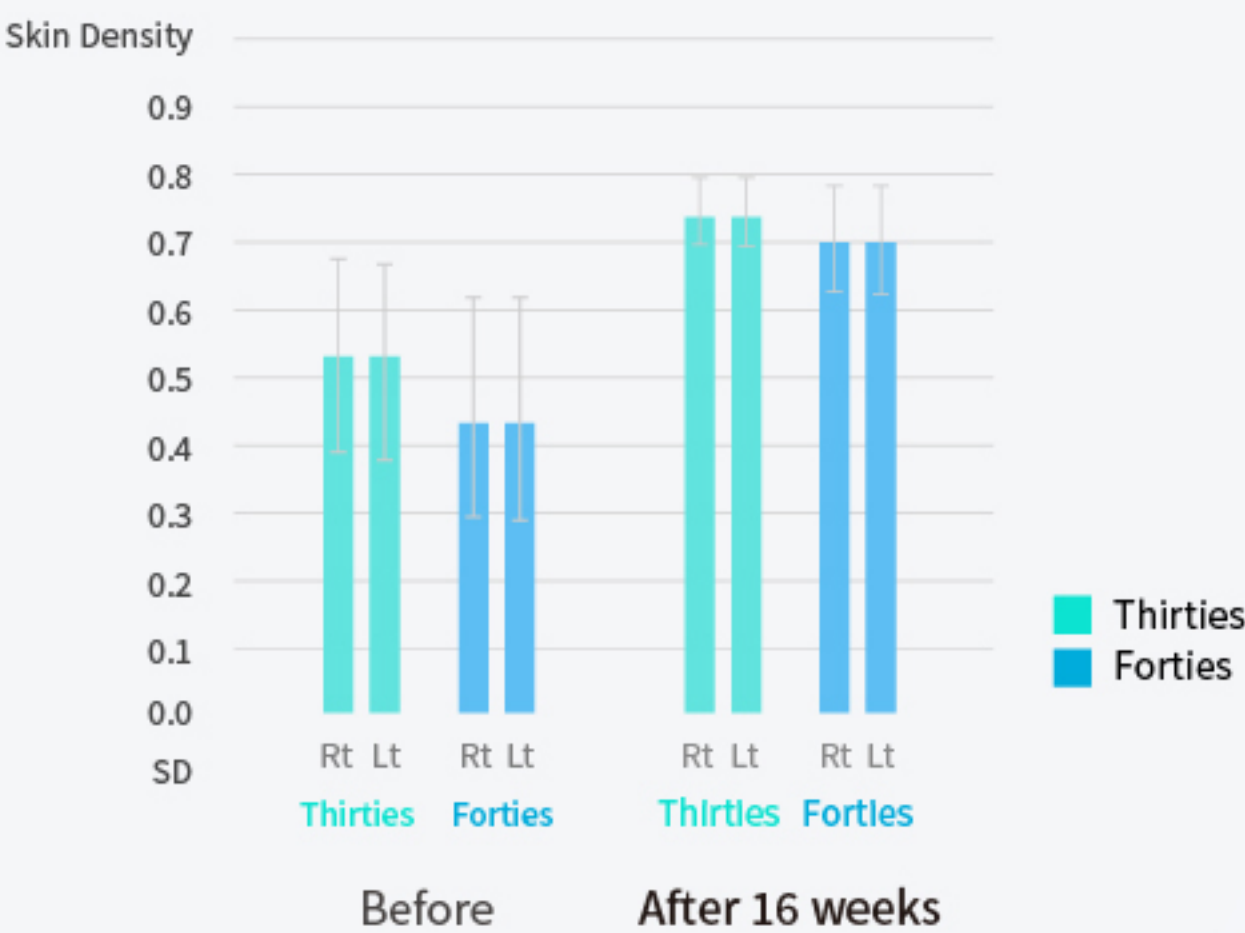

An average increase of
41.85%

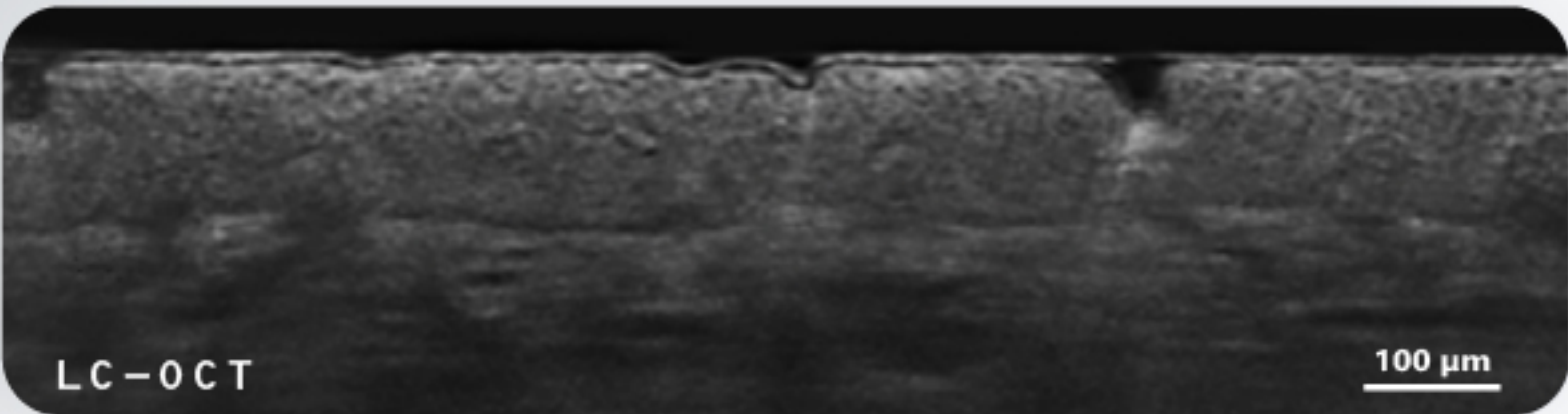

An average increase of
64.85%

Skin Density Improvement (SD)

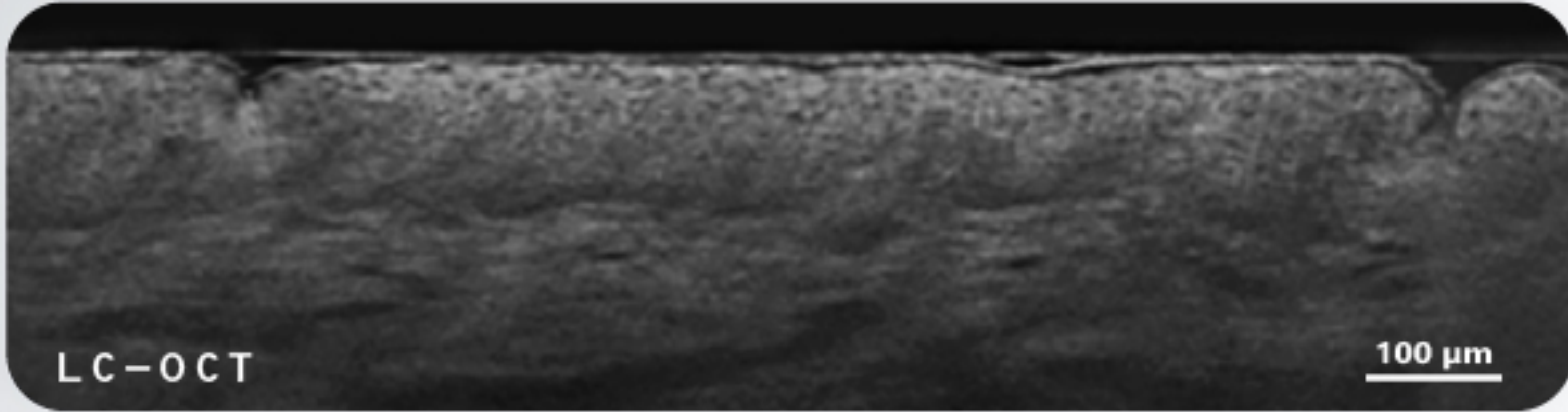

Optical Coherence Tomography (OCT) measurement

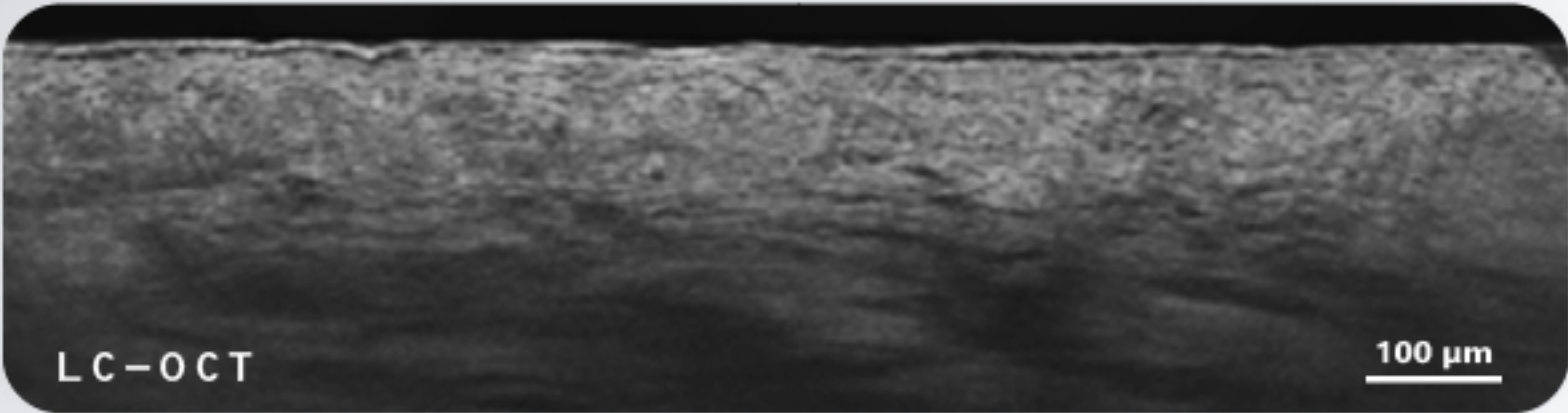

Before

After 2 Session

After 4 Session
and 8weeks

Scans were taken below the zygoma using the columella line, but exact location may slightly differ due to micrometer-level sensitivity.

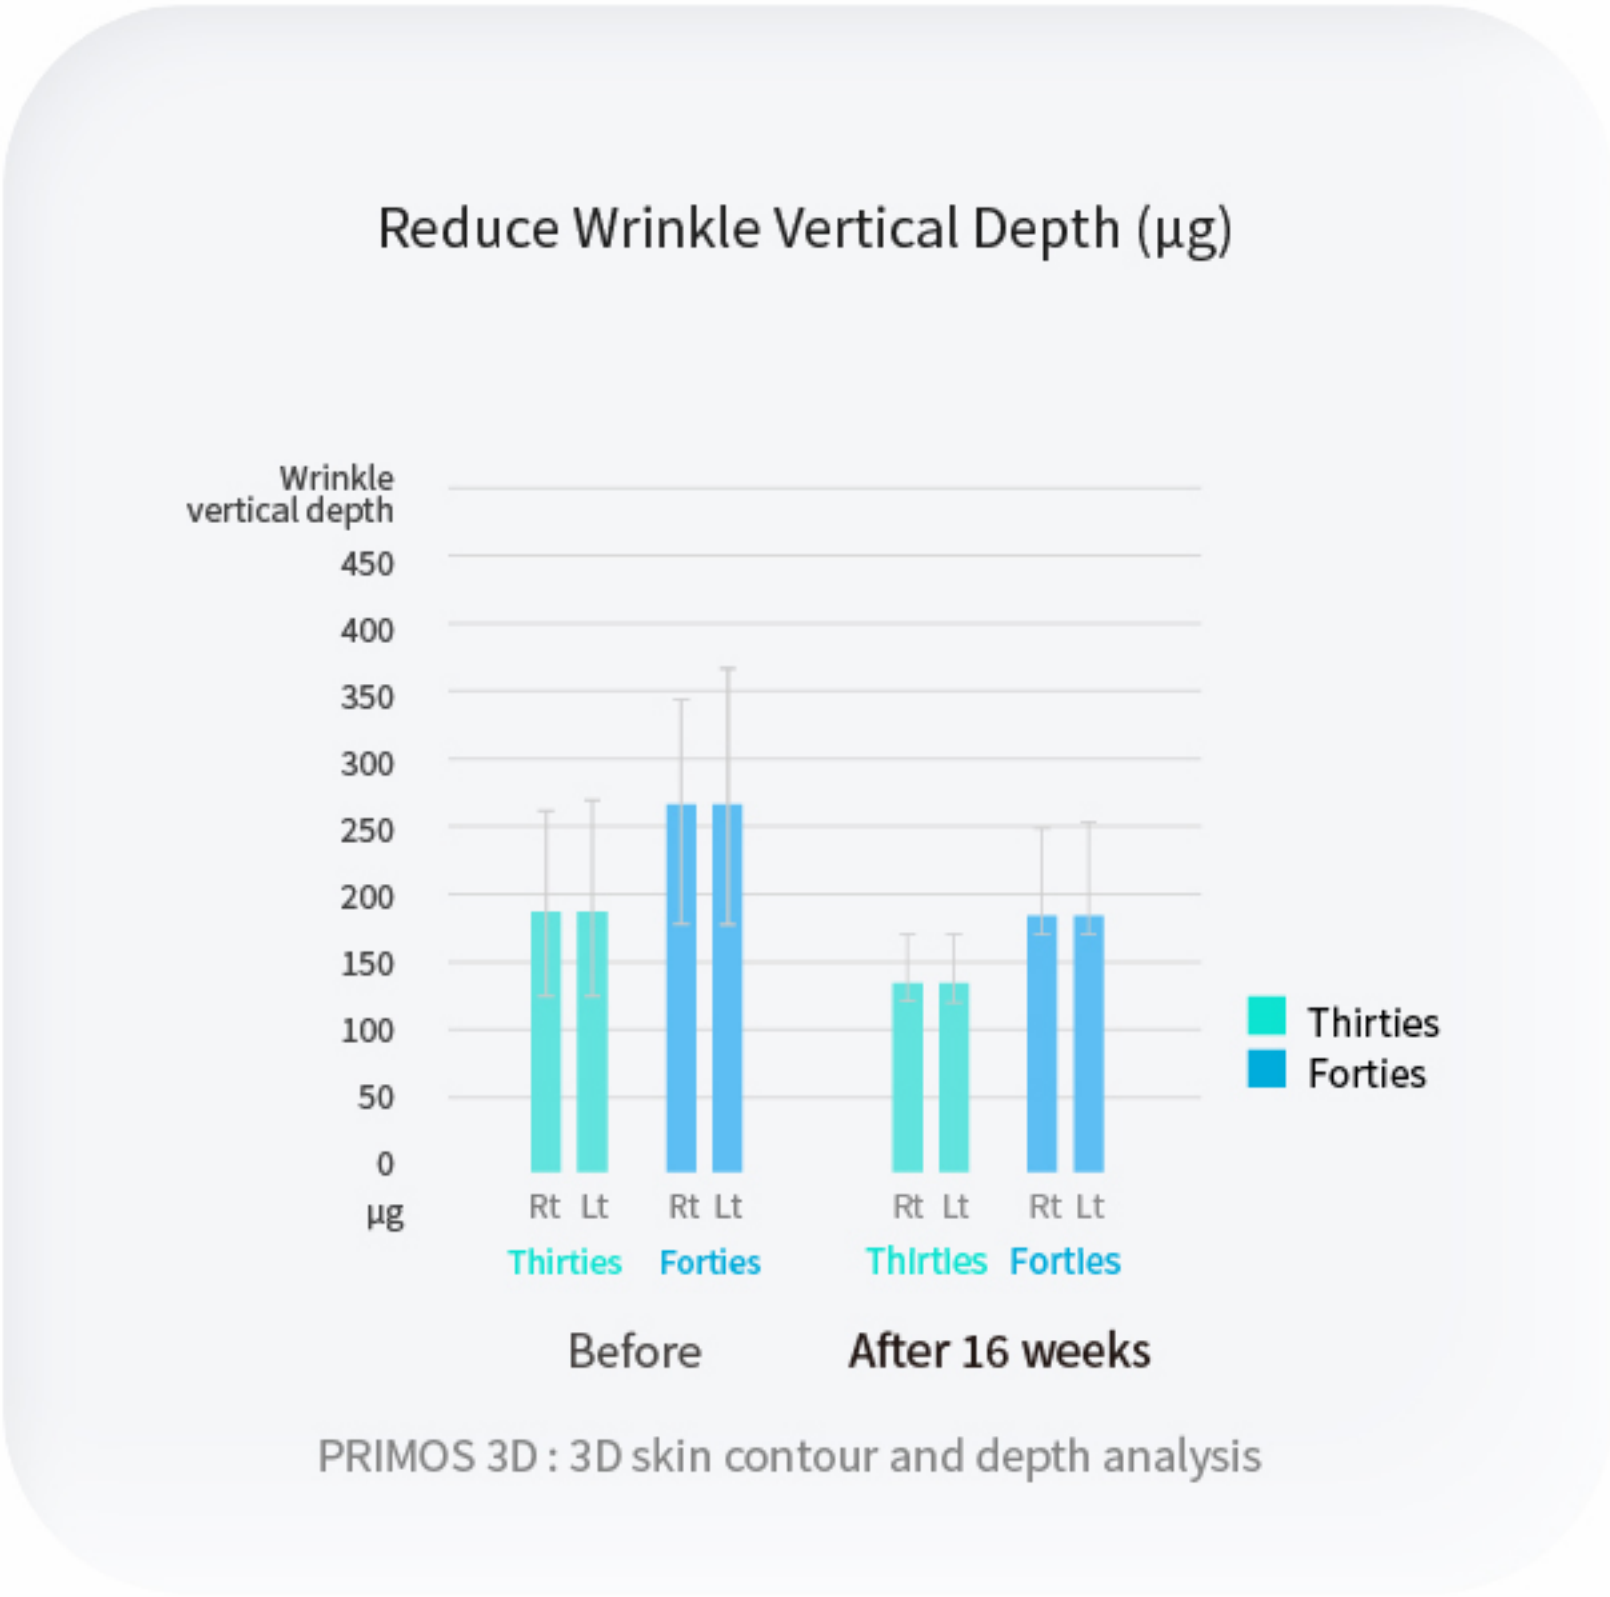

Wrinkle Relief

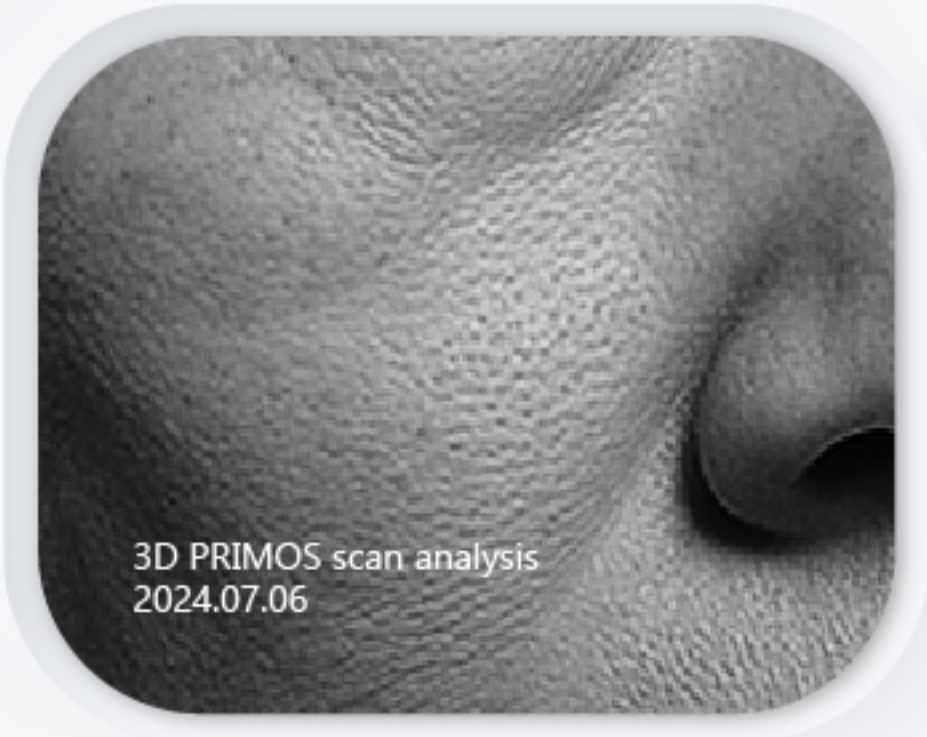

An average reduction of
↓ **26.96%**

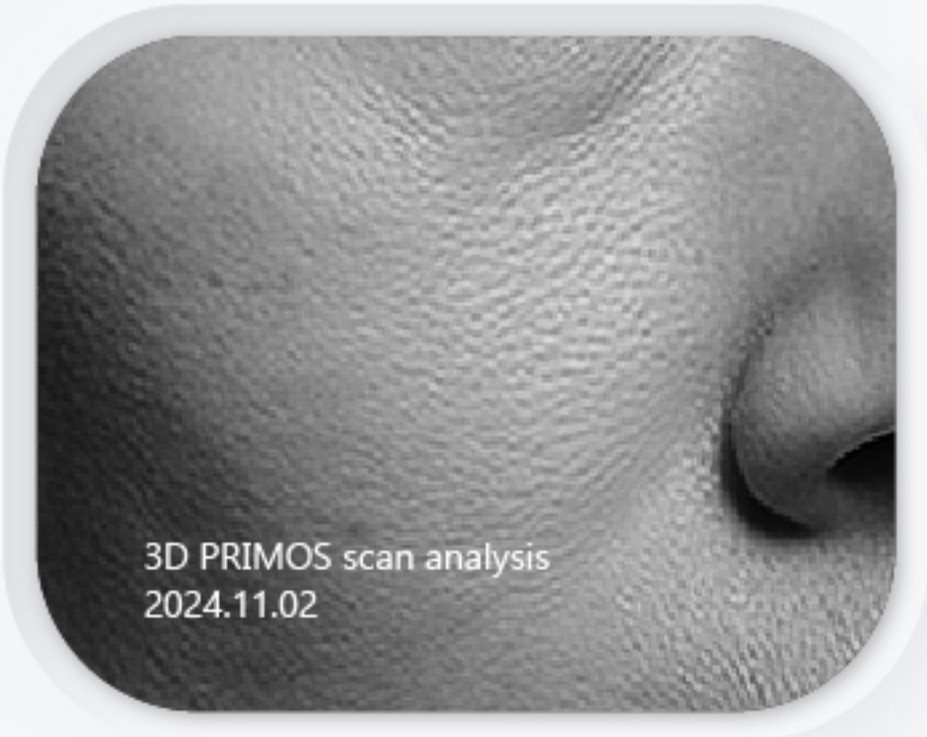

An average reduction of
↓ **34.85%**

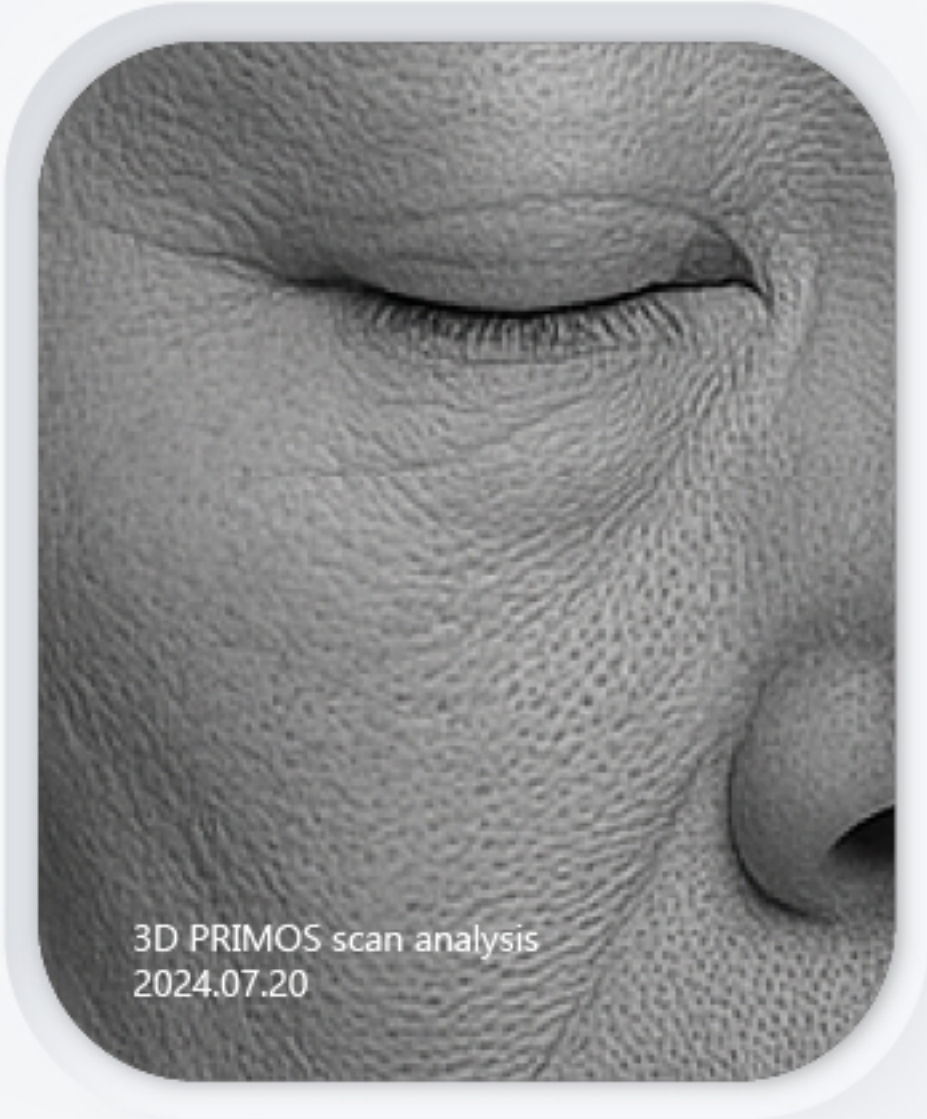

Before

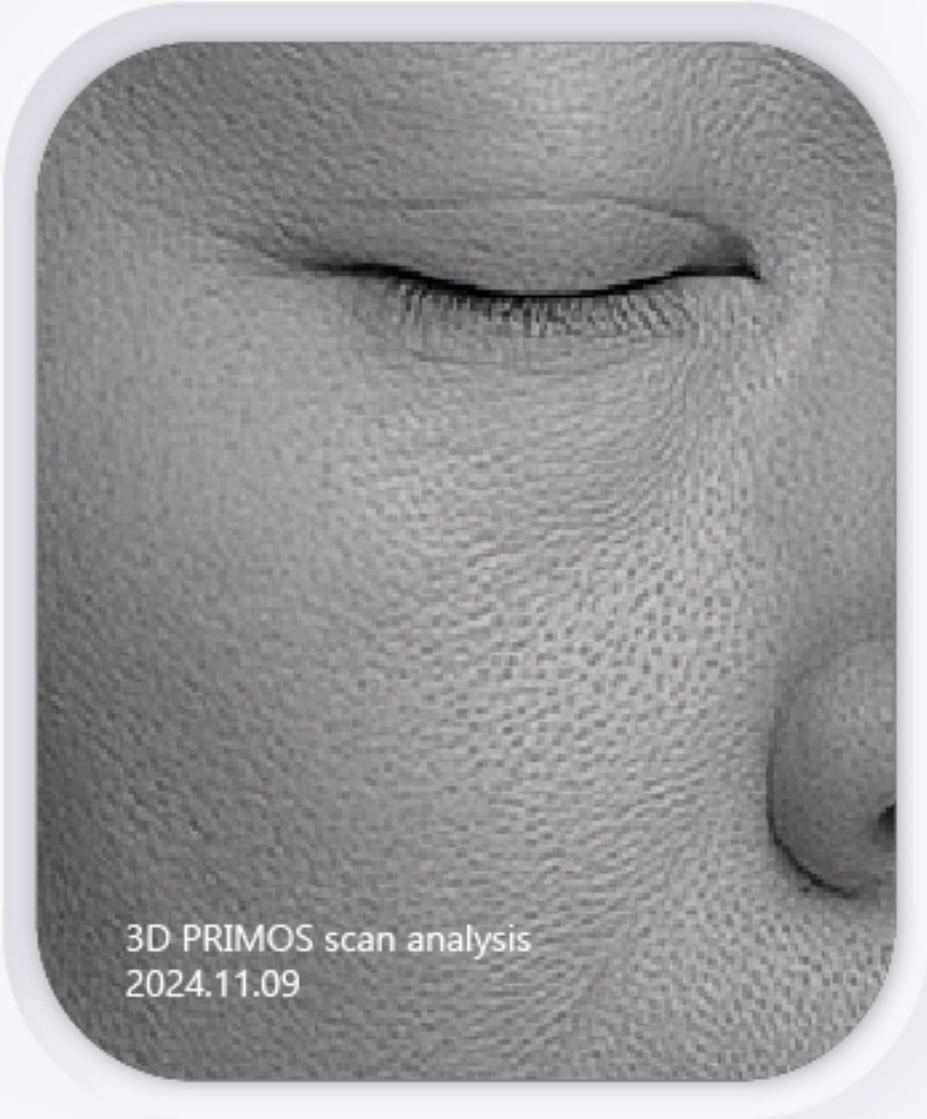

After 17 weeks

Before

After 16 weeks

Wrinkle depth was used as the main indicator, since deeper wrinkles are usually longer.

Skin Lifting

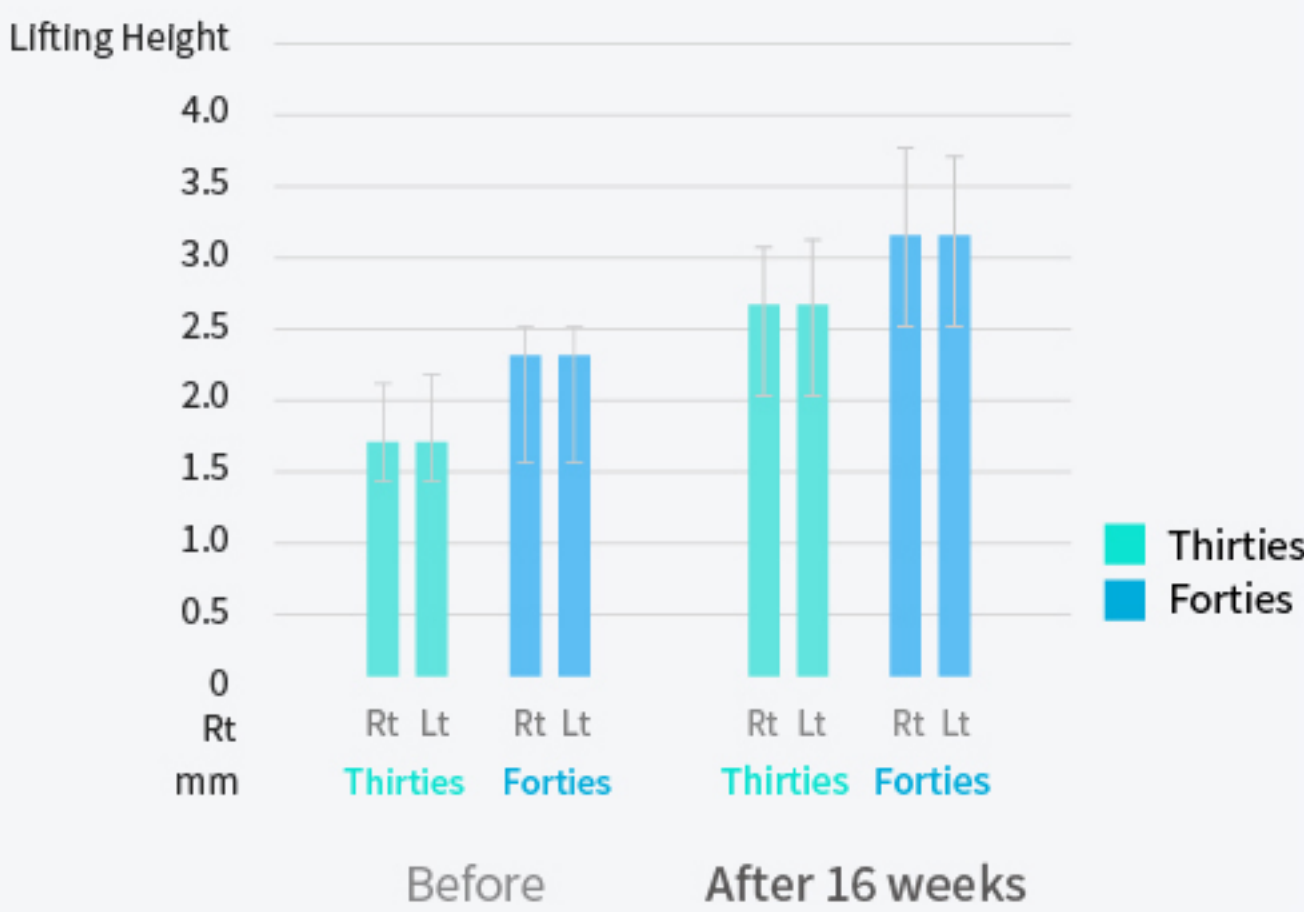

An average lifting of
2.75mm

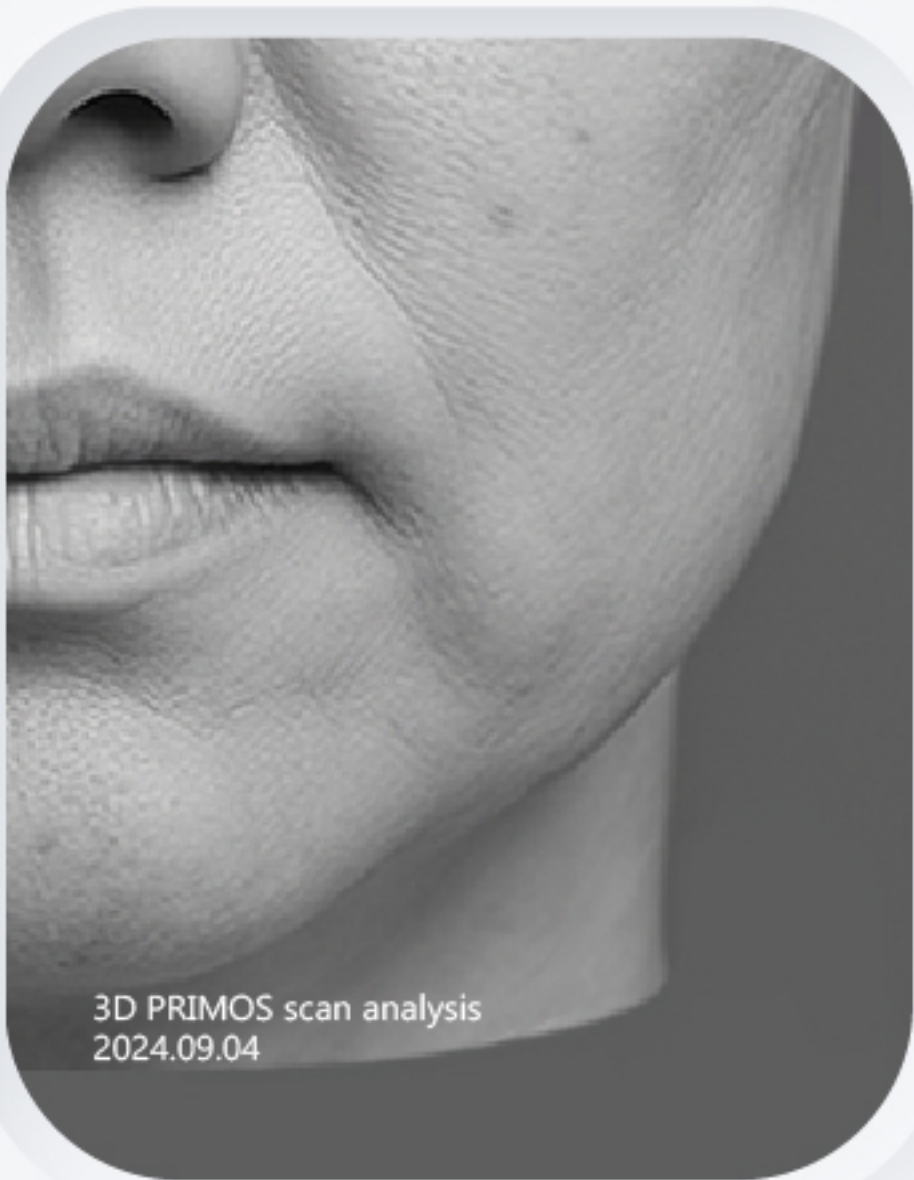

An average lifting of
3.11mm

Skin Lifting Height (mm)

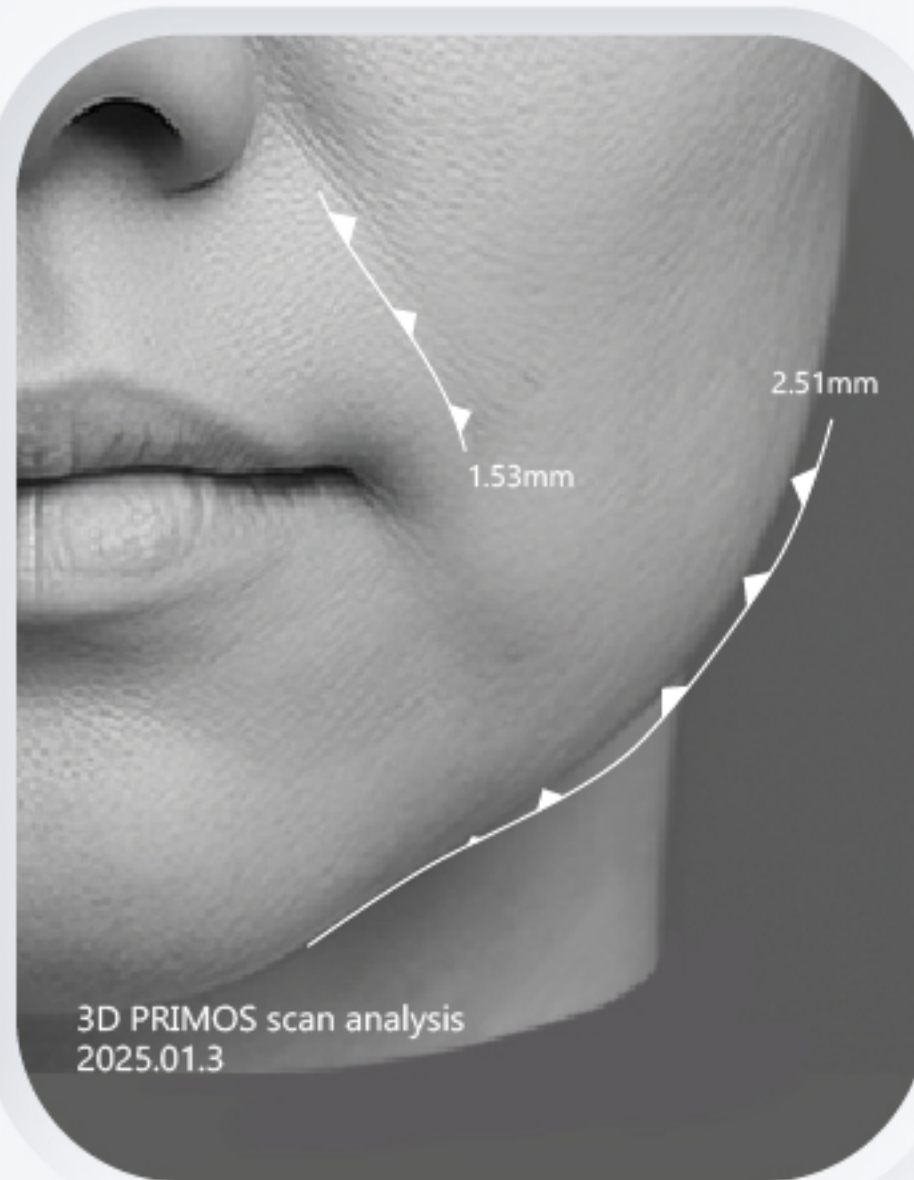

PRIMOS 3D : 3D skin contour and depth analysis

Before

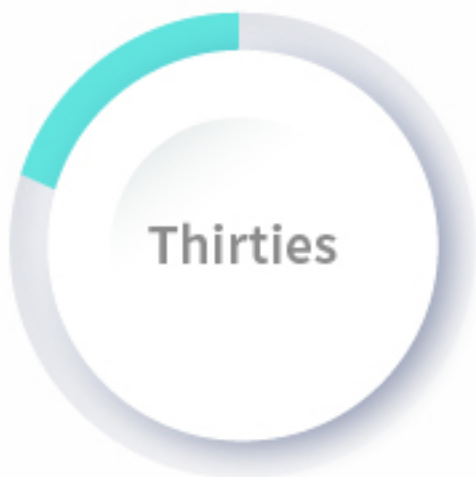

After 17 weeks

The data represents quantified changes in skin and facial contours, measured based on the shortest linear distance using 3D models scanned with the PRIMOS 3D system.

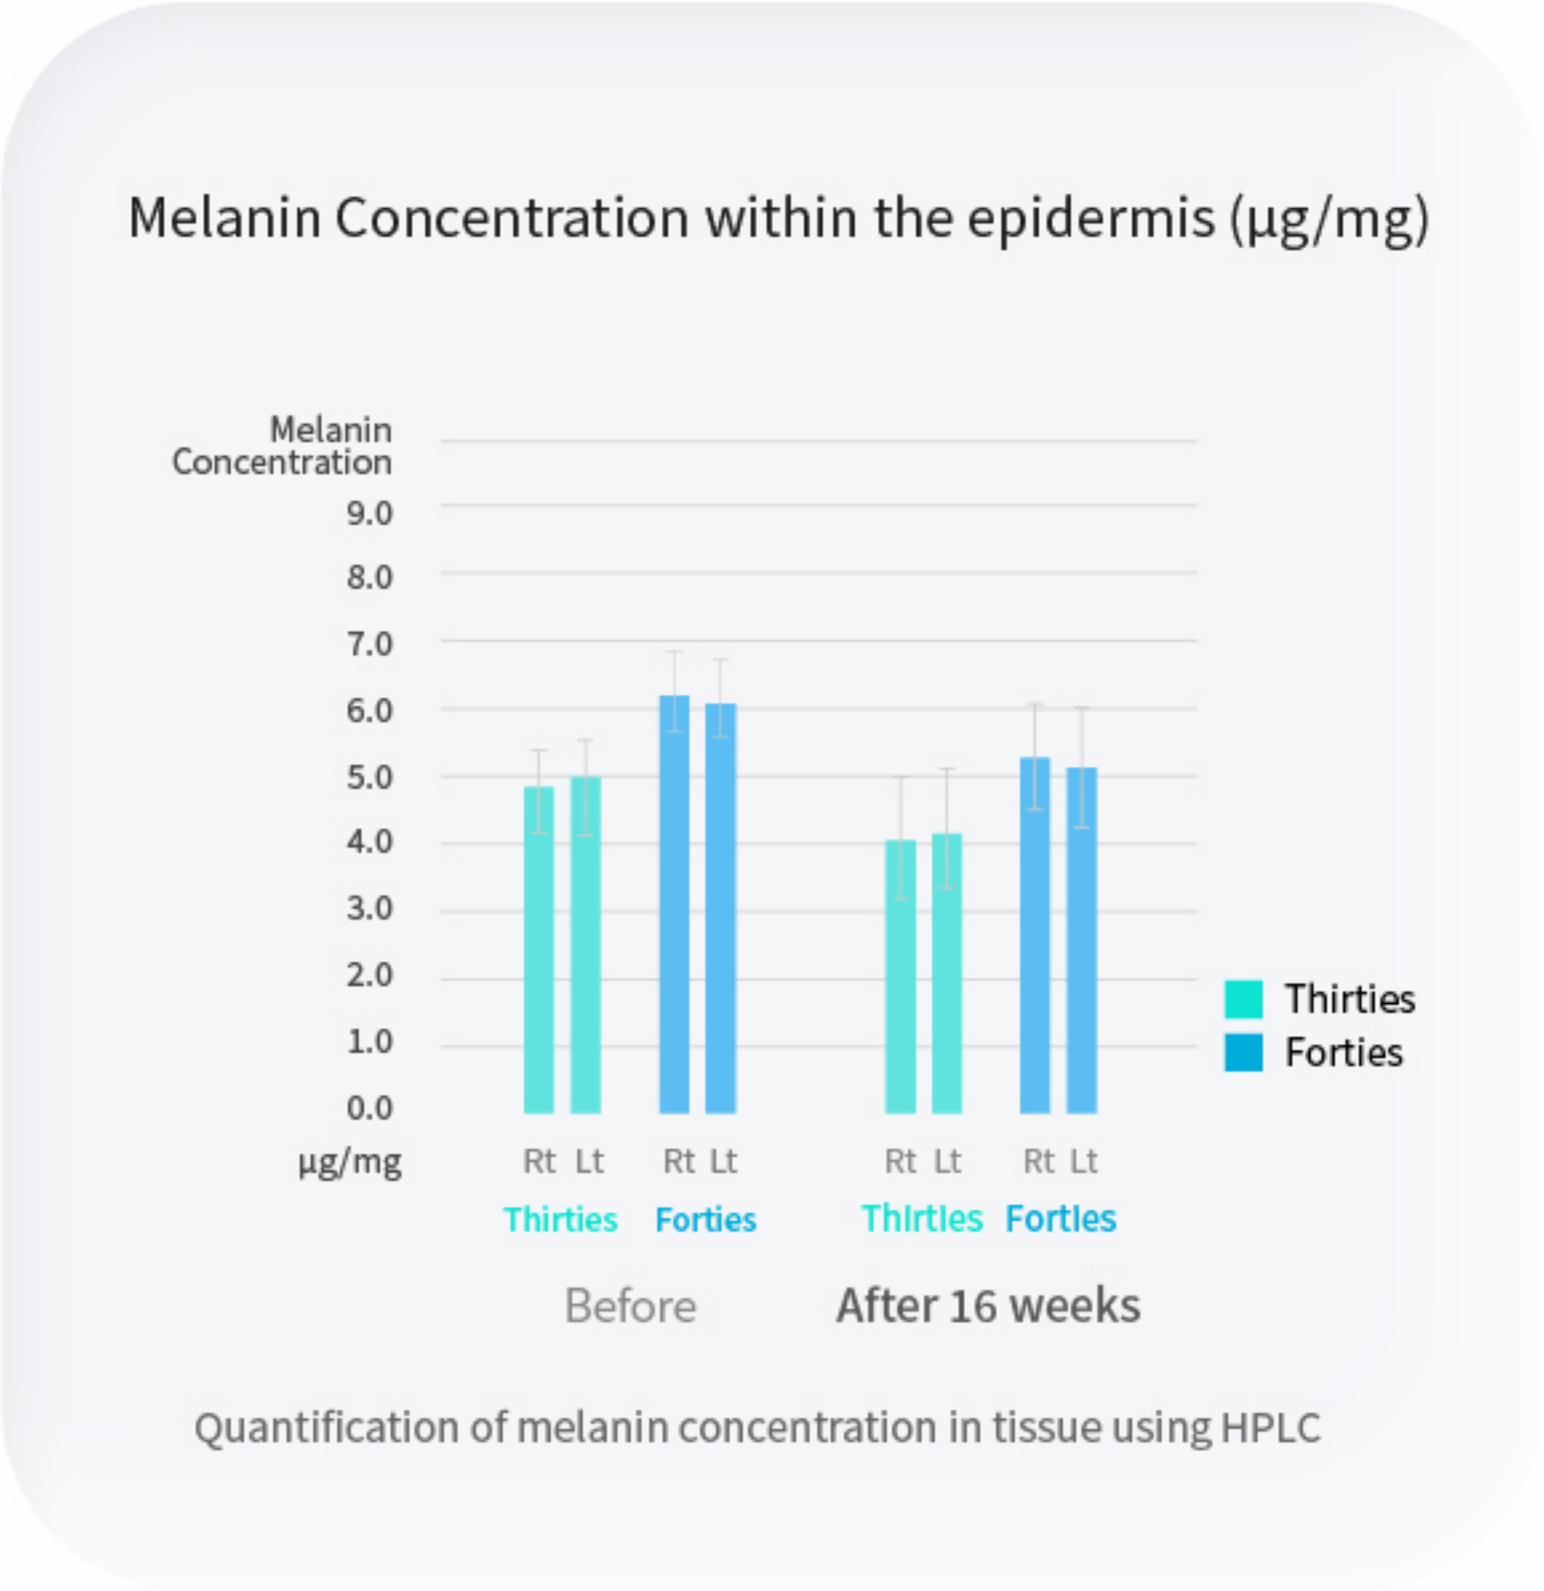

Melanin Deposition

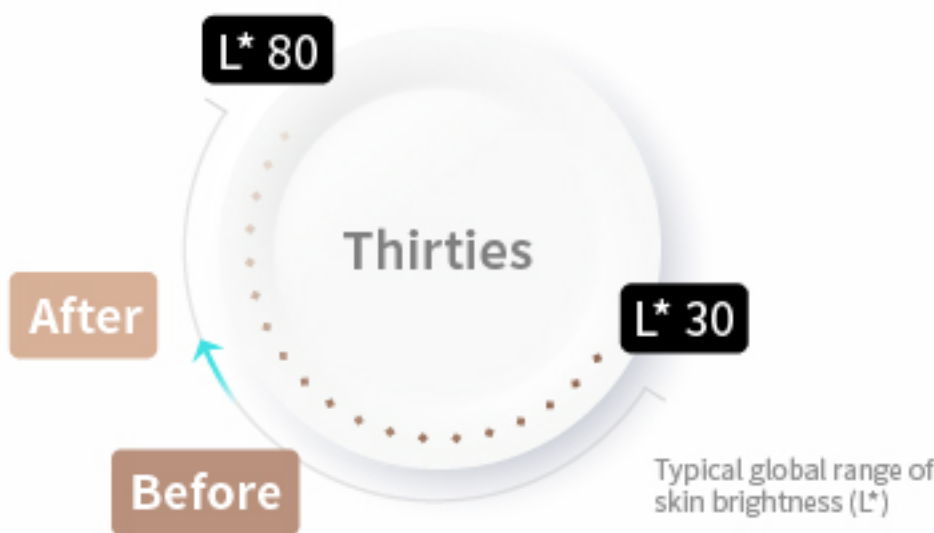

An average decrease of
↓ **18.40%**

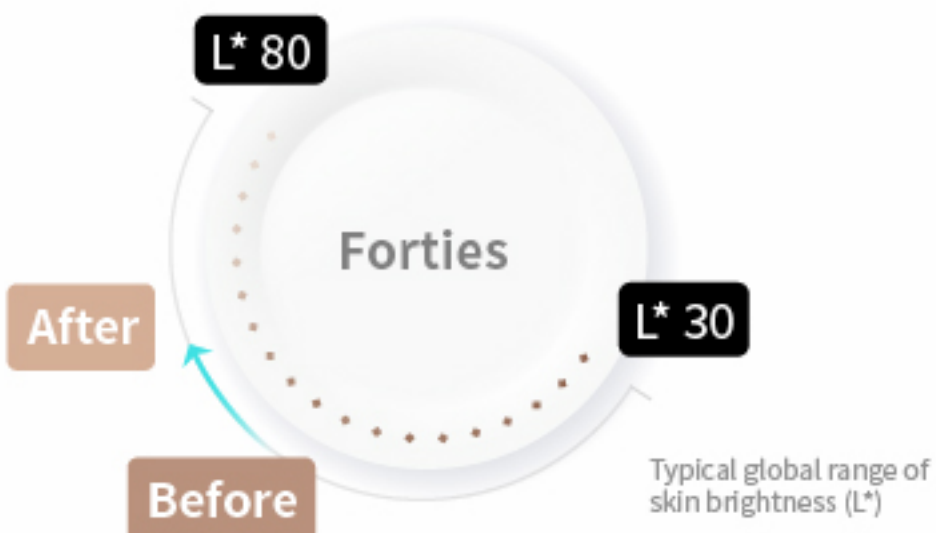

An average decrease of
↓ **18.15%**

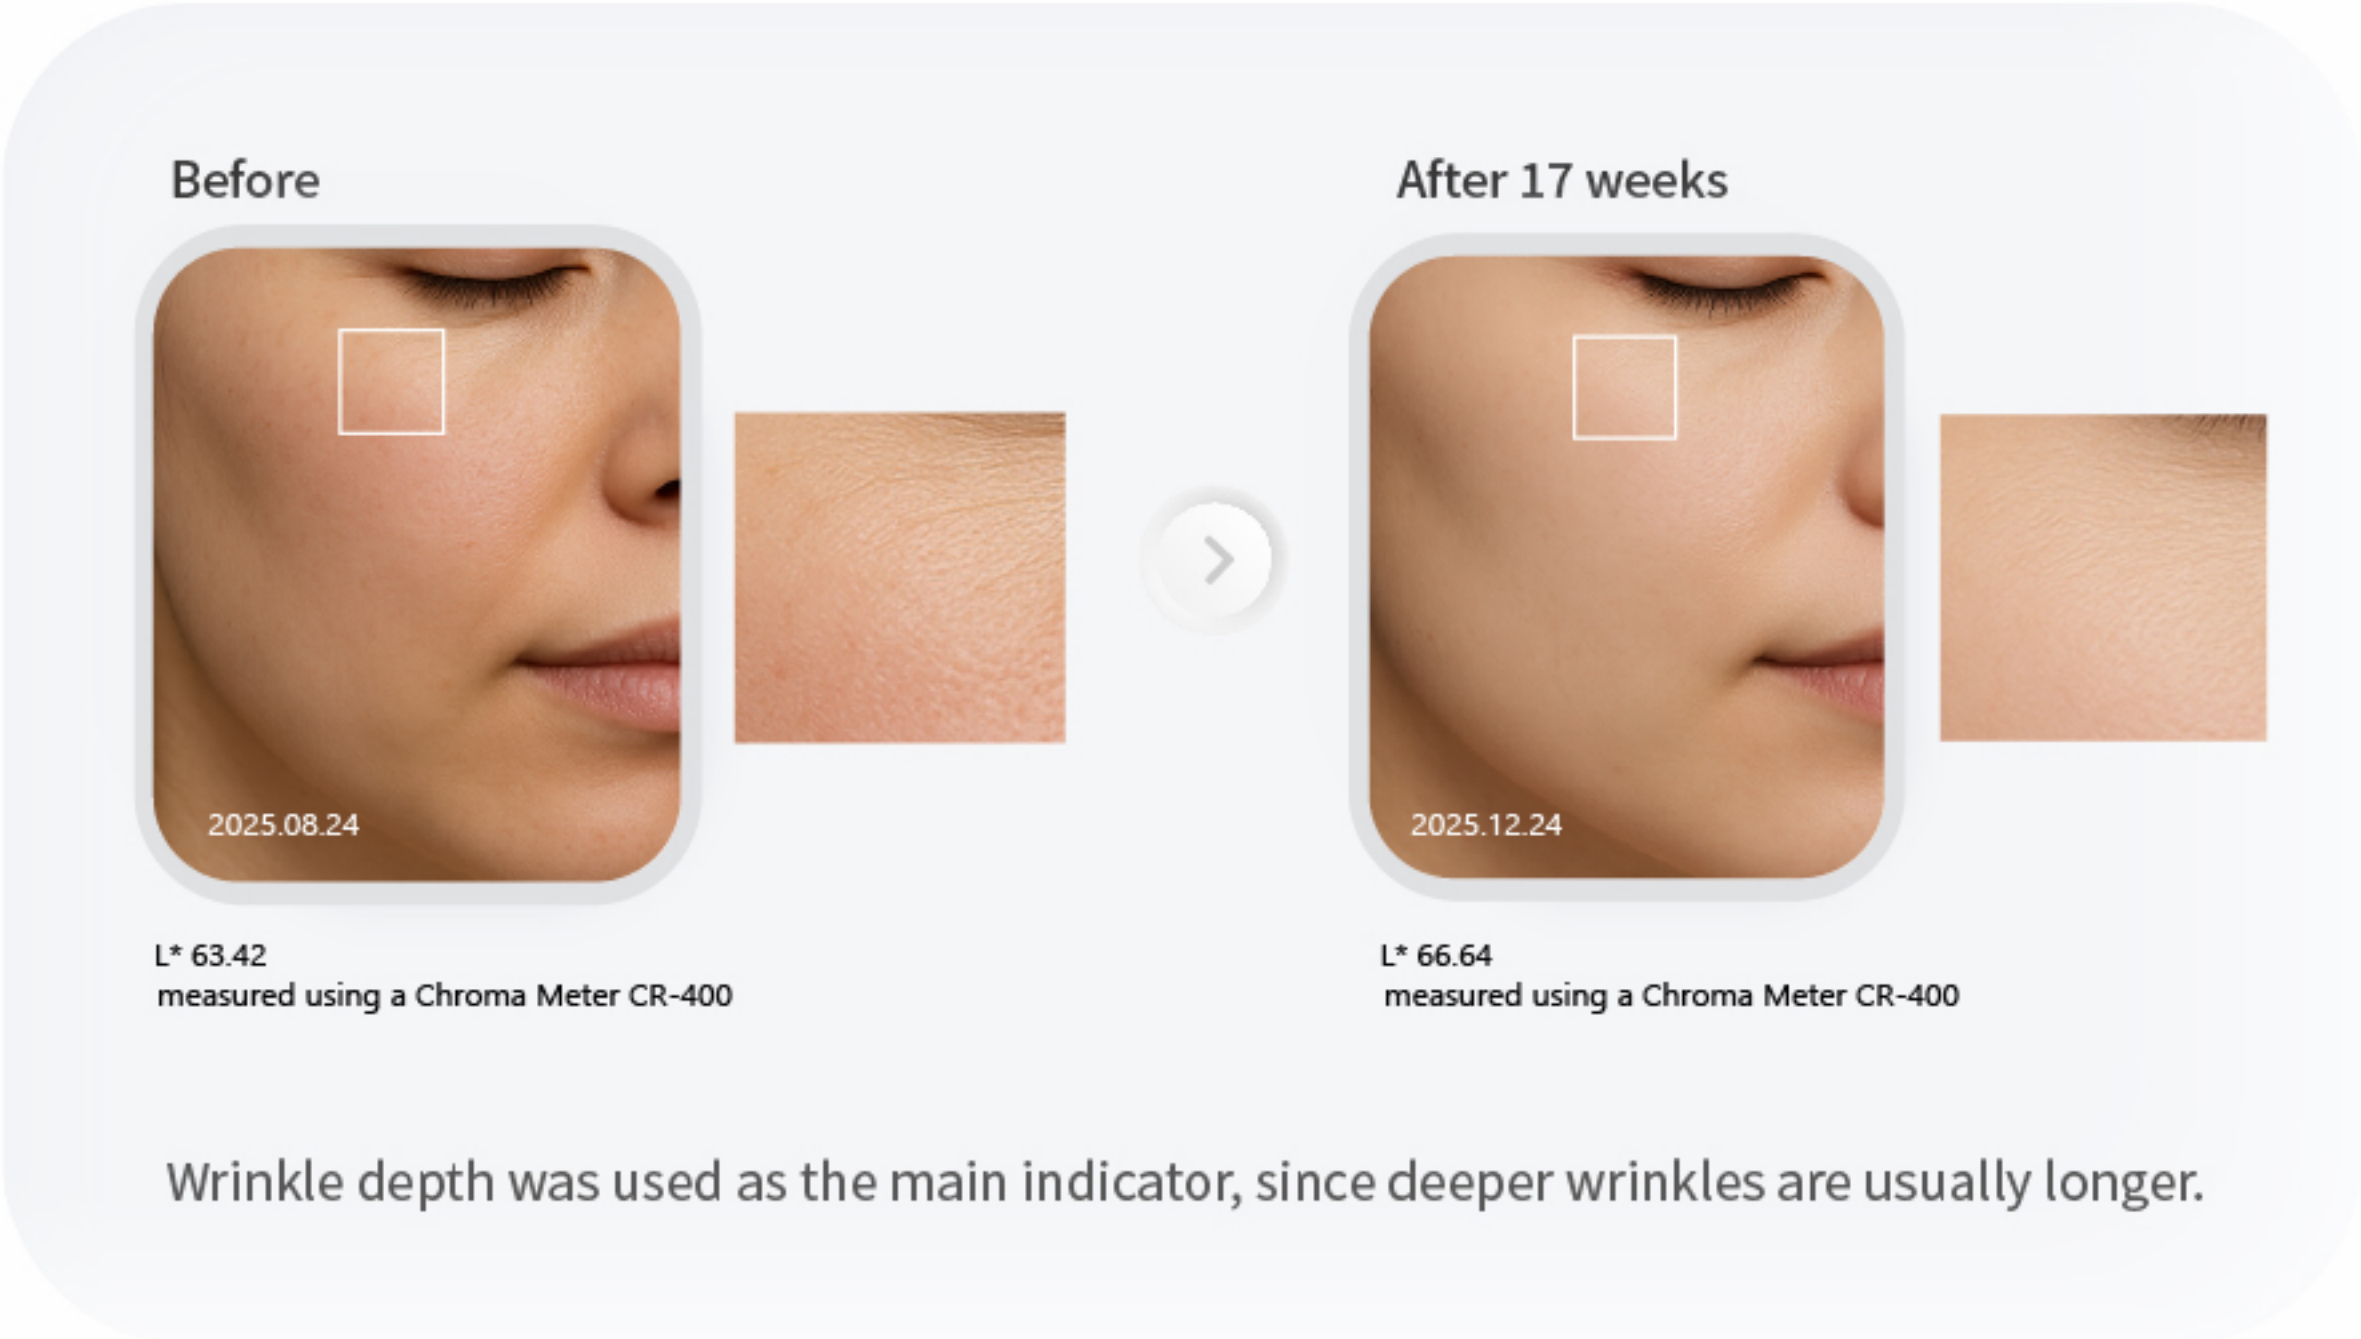

Tone-up Effect

An average brightening of
↑ **5.97%**

An average brightening of
↑ **6.88%**

Pore Reduction

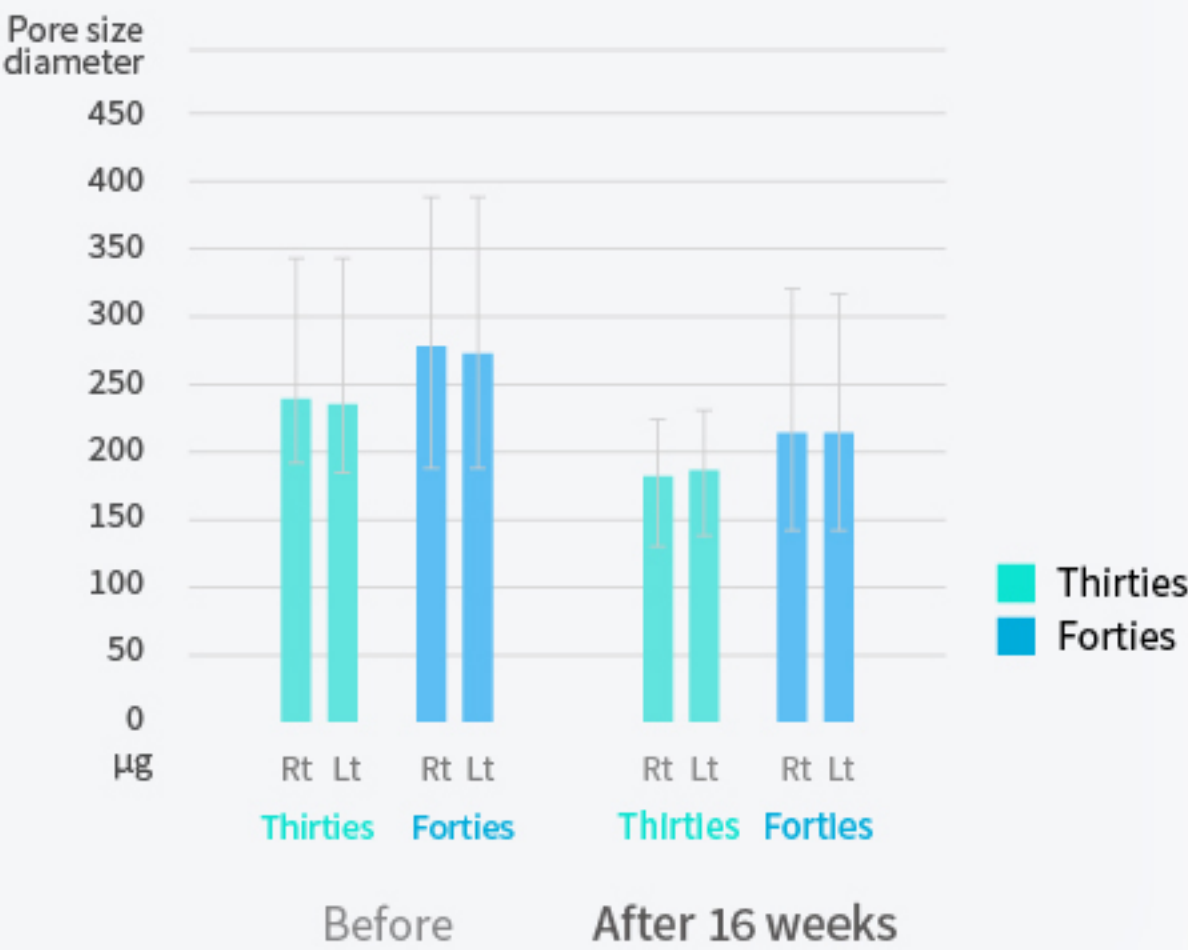

An average reduction of
↓ 25.73%

An average reduction of
↓ 27.31%

Pore Size Diameter Reduction (µg)

VISIA : Pore Image Analysis Software

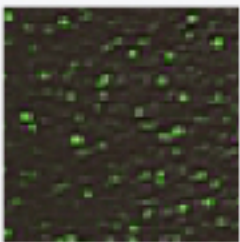

Before

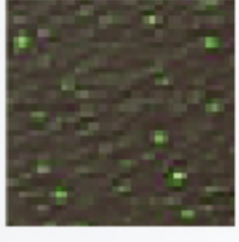

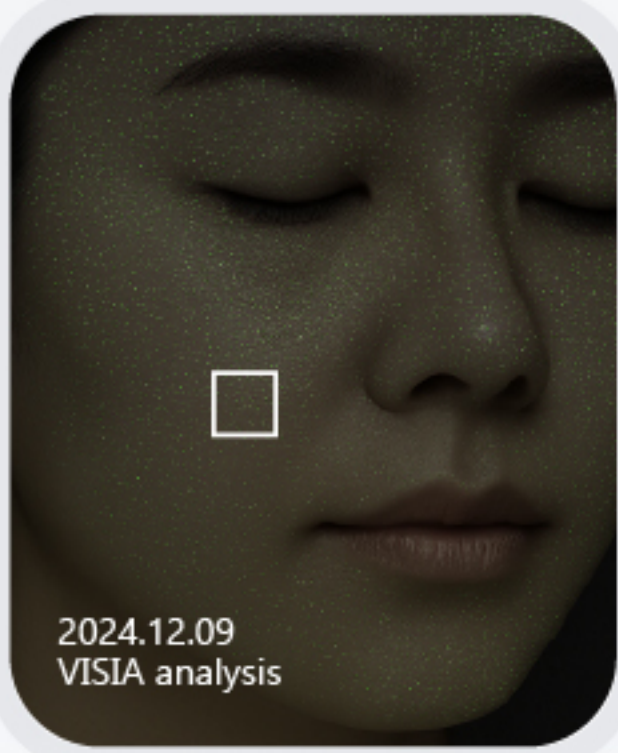

After 16 weeks

After 16 weeks

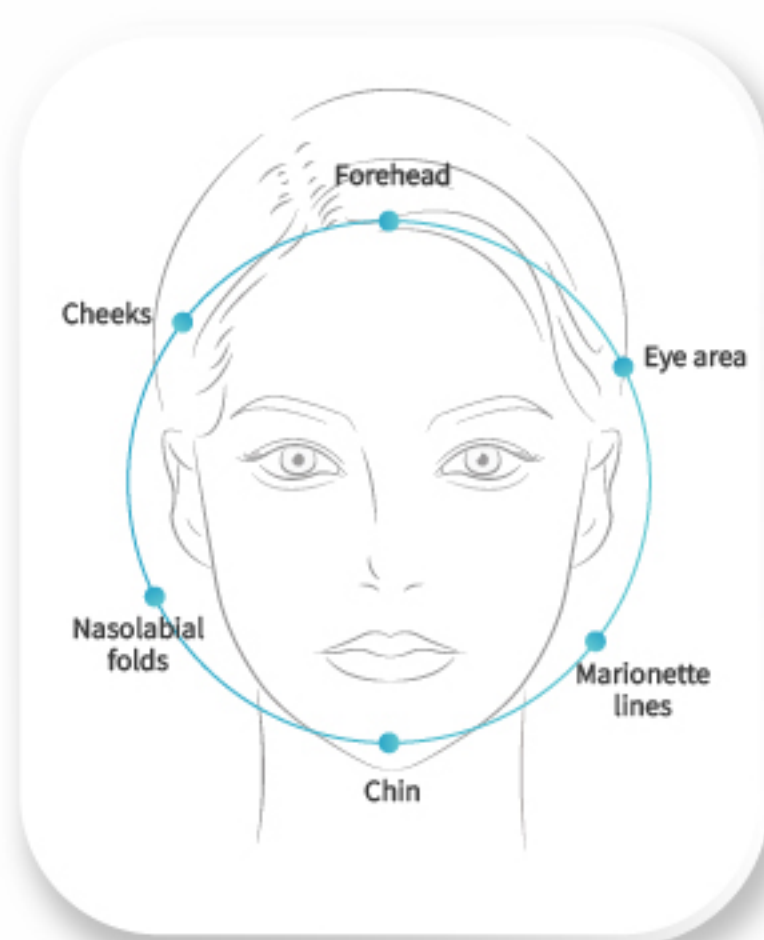

Treatment Protocol & Guidance

Main Course

Application Sites

● Full face

Applicable to the dermal layer of areas requiring improvement, including the forehead, periocular area, cheeks, cheekbones, nasolabial folds, perioral area, and chin.

※ Injection site and depth may vary depending on the clinician's judgment.

Treatment Method & Tools

● Multi needle System (Meso gun)

Use 31~33G 5-pin or 9-pin multi-needle tips

● Hand-on Techniques (Nappage)

Use 30~34G single needles

Additional Course

Following the main course, after a 3 to 6-month interval

4 Session at 2~3 week intervals

- **Interval and frequency may be adjusted based on**
 - ✓ Skin elasticity
 - ✓ Degree of wrinkles
 - ✓ Dryness
 - ✓ Breakouts or sensitivity
 - ✓ Recovery speed

Adjunctive Treatment Options

- **MTS (Microneedling)**

Enhances active ingredient delivery and supports collagen synthesis and regeneration.
- **Energy-Based Combination**

Promotes collagen regeneration and enhances the synergistic effect of PURI PDRN treatment.

 - RF Needling (Secret RF, Potenza, Sylfirm X etc.)
 - Fractional Laser (CO2 / Er:YAG etc.)
- **Non-Invasive Recovery Device (Cryocell, LDM, LED etc.)**

Supports post-treatment calming and recovery, boosting the overall results when combined with PURI PDRN.

PURI PDRN

AETERDERM®

PURI PDRN

Elastic & Rejuvenating

[COMPOSITION]

Hyaluronic Acid	25 mg
Polydeoxyribonucleotide	5 mg
Niacinamide	5 mg

[PACKAGING]

2.5 mL X 5 Syringes / Box
